

FLOURISH · CREATION

YEAR 6

Build a workable routine

Commitments and preparation steps that make the move to high school manageable.

#routine

#preparation

#independence

#responsibility

What makes a routine one you actually keep, and not just one that looks good on paper?

You can always pass, write your answer privately, or use a made-up example.

Proverbs 21:5

“The plans of the diligent lead to profit as surely as haste leads to poverty.”

Proverbs 21:5, New International Version (NIV)

CHRISTIAN CONNECTION

Steady planning is treated as wisdom, not fuss. Small preparation steps done on purpose beat last-minute rushing, and that is what a workable routine is built from.

WATCH FOR

- Preparation is a way of caring for yourself and others
- Small steps repeated beat big plans done once
- One commitment you could start next school morning

PRACTISE

REFLECT

Which routine steps actually work?

In groups, sort the six cards below:
WORKABLE or NEEDS EDITING.

1 Get everything ready whenever I find time

3 Never be late or forget anything again

5 Same wake-up time every school day

Then agree on the four routine steps you will actually keep.

2 Pack my bag the night before

4 Check tomorrow's timetable before bed

6 Homework at a set time and place

Two of these drafts will not survive a busy week — rewrite them together, then keep your final four.

REFLECT

“One step I can take this week to make my school mornings work is ...”

Write this one privately — you don’t have to share it.

TAKEAWAY

A workable routine is small, repeatable and yours — preparation makes independence possible.
